Class X

Board	Maharashtra
Medium	English
Year of Passing	2016
Grade	82.60%

INTERNSHIPS

Raka Construction, 6 Months

The internship at Raka Construction offered me a valuable opportunity to gain hands-on experience and practical knowledge. As an intern, I worked closely with professionals such as engineers, architects, project managers, and construction workers, learning about various aspects of the construction process. During my internship, I mainly focused on observation and learning, safety practices, project support, hands-on experience, collaboration, and exposure to various construction phases. Throughout this experience, I had the responsibility of completing projects within deadlines, which provided me with the opportunity to work under pressure and develop my skills accordingly.

PROJECTS

KisanMitra, 31 Days

Platform : ASP.NET Web Api, ReactJS and MS SQL Server E-commerce Website (KisanMitra) for Online Seed, Fertilizer, and Pesticide Sales. The objective of this project is to develop an e-commerce website specifically for selling online seeds, fertilizers, and pesticides. The website will serve as a platform for farmers interested in gardening, agriculture to browse, select, and purchase these products conveniently from the comfort of their homes. The project will involve designing and implementing features to provide a seamless and user-friendly shopping experience for farmers.
